

Build. Design. Logistics.

HENRY ROSE

I don't feel the tension between pragmatic concerns and artistic goals. For me they are the inherently linked: beauty emerges from a deep familiarity with building materials, assemblies, costs, suppliers, logistics, policies, and actual hand-techniques. This means we will deliver the most elegant results when we address real-world problems proactively—by inquiring, listening, and adapting. In the end, this kind of work often goes unnoticed. I believe that is for the best.

EMPLOYMENT

Graduate Research Assistant. 2018 - present, University of Texas at Austin, for Larry Speck, FAIA. I manage course logistics, create slideshows for lectures & oversee website development.

Teaching Assistant. 2017 - 2018, University of Texas at Austin, for *Architecture & Society* and *Creative Problem Solving*. I developed curriculum and taught weekly sections of 50 students; grading.

Crowell Builders — Field Engineer. 2017, Austin TX, General Contractor. I dropped into a \$2m penthouse remodel to assist with fastidious construction details and to manage the site when the superintendent was on paternity leave; meetings, emails, problem solving.

AHR Carpentry & Design, LLC — Owner. 2012 - 2016, Seattle WA, General Contractor. I developed this business to find durable, refined solutions to unusual problems; we worked primarily on old homes & fixed issues left over from poor renovations; small remodels, furniture.

Hazel Point Co. — Superintendent. 2010-2012, Seattle WA, General Contractor. I was promoted quickly from a laborer and began managing projects within 3 months; tasks included client relations, subcontractor oversight, framing & finish carpentry, site work, foundations; larger remodels.
