

Build. Design. Logistics.

HENRY ROSE

www.ahenryrose.com

I think critically, write pointedly, and love solving puzzles—the more complex the better. I am a natural autodidact. I can't stand boxes. I hunt for the other perspective and aim for the center. I wear a lot of hats. I collect a lot of tools. I make things. I believe in the analog.

I am looking to join a diverse team of optimistic, enthusiastic, innovative people to see what we can do. The challenges this planet faces are not insignificant, but I believe we can sort them out if we act now — together, and with the right blend of pragmatic optimism.
